Advanced Preparation: None

Level: Basic

Prerequisite: None

Field of Study: Business Management

CPE*: 1.5 credits

This workshop session will focus on how critical access hospitals can evaluate insurance contracts and how best to manage the contracting process (in economic and non-economic terms). We will also discuss contractual provisions in typical commercial contracts to review during the contracting process as well as how to understand and mitigate risk associated with various contract provisions. This session is a technical workshop designed for critical access hospital CEOs, CFOs, and others involved in the contracting process.

Learning Objectives:

- Evaluate the types of valued-based contracts.
- Determine how to manage the contracting process.
- Understand how to mitigate risk associated with contract provisions.

Speaker: Jane Jerzak, CPA, RN, Partner – Wipfli LLP

Concurrent: Medicare Critical Access Hospital Reimbursement: Greatest Hits and Biggest Mistakes (Part One)

1:00 – 2:30 p.m.

Advanced Preparation: None

Level: Basic

Prerequisite: None

Field of Study: Accounting

CPE*: 1.5 credits

What is most critical when preparing a Medicare cost report is to “get it right.” Throughout the various cost report worksheets, there are items that have a direct impact on reimbursement. As a result of this direct impact, if data is not properly tracked, recorded, and understood, there can be financial consequences. This session will focus on the one “greatest hit” on each significant CAH cost report worksheet and the resolution to avoid the “biggest mistake.” Specific topics covered will include the following: cost report reimbursement elections, tracking patient days and rural health clinic visits, expense allocation, revenue offsets, and trends noted in Medicare auditor adjustments.

The cost report isn't just a "one hit wonder," but it can be a tool for high-level strategic decision making. With a good understanding of how data is reported on the cost report, you can use the results to analyze costs, compare a contract, review contribution margins, and benchmark against yourself. While it is important to stress that the cost report has its limitations, it may well be one of your best resources when evaluating financial performance at a high level.

Learning Objectives:

- Understand how data is reported.
- Evaluate how to use your cost report as a tool for analysis.

Speakers:

Paul Traczek, CPA, Partner – Wipfli LLP
Holly Pokrandt, CPA, Partner – Wipfli LLP

Concurrent: You Get What You Pay For: How to Create Effective Incentives Within a Physician Compensation Plan

2:45 – 4:30 p.m.

Advanced Preparation: None
Level: Basic
Prerequisite: None
Field of Study: Business Management
CPE*: 1.5 credits

There is truth to the old adage "You get what you pay for." This is especially true as it relates to incentives in physician compensation plans. In this session, we will share with you meaningful incentives and how health care reform is pushing and translating these principles into incentives. In addition, we will provide a guide for moving from productivity compensation to including nonproduction incentives. Finally, we will highlight key regulatory pitfalls and land mines you will want to watch out for such as FMV, Stark, Anti-Kickback, and more.

Learning Objectives:

- Learn about the impact that health care reform is having on physician compensation arrangements.
- Understand how traditional physician compensation plans can be shifted to provide new incentives.
- Review key regulatory concerns regarding physician compensation arrangements.

Speakers:

Jeff Johnson, CPA, Partner – Wipfli LLP
Jeff Bramschreiber, CPA, Partner – Wipfli LLP
